Project Name	Explore with AI: Custom Itineraries for Your Next Journey
Maximum Marks	4 Marks

Brainstorming was conducted by the team to identify innovative project ideas suitable for a Generative AI internship. The objective was to explore real-world problems where AI could provide practical and scalable solutions. All team members actively contributed ideas related to AI, automation, and user convenience.

During the session, multiple ideas were discussed, evaluated, and expanded collaboratively. The team focused on selecting a project that demonstrates Generative AI capabilities, solves a real problem, and is feasible within the internship timeline.

Group Ideas

Take turns sharing your ideas while clustering similar or related notes as you go. In the last 10 minutes, give each cluster a sentence-label title. If a cluster is bigger than six sticky notes, try and see if you can break it up into smaller sub-groups.

Tip
Add a sentence-like label to sticky that groups so everyone can understand and remember your ideas, no matter when comes they to go seen.

Step-3: Idea Prioritization

4

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.
